SUMMARY

Passionate full-stack developer with a great passion for writing tested reusable code. I enjoy working with teams and building software solutions using Ruby on Rails, Stimulus JS, React, JavaScript, GrapgQL, and Redux.
I love cooking and spend some free time teaching mathematics.

SKILLS

Front-End: React, JavaScript, MaterialUI, Redux, Stimulus JS, HTML/CSS, Bootstrap, and TailwindCSS.
Back-End: Ruby, PostgreSQL, Ruby on Rails, Redis, Sidekiq, GraphQL, SQL.
Tools & Methods: Git, GitHub, Jira, Heroku, Netlify, webpack, RSpec, Chrome Dev Tools.
Professional: Remote Pair-Programming, Teamwork, Self-motivated and can work under minimal supervision, Good communicator, and Proactive in learning new things.

Languages: English(native), French(fluent).

EXPERIENCE

MarbleFlows   **Remote**
Full Stack Developer   **March 2022 - Present**
Maintaining and building new features on Marble products. (marble.so and marbleteams.com build with Rails and marbleflows.com build with Rails, GraphQL, and ReactJS)
- Build robust integrations in marble products (Stripe, Pabbly Subscription Billing, Hubspot, Mailchimp) which improved payment options for customers who managed sales and helped customers manage their users using their desired CRM tools.
- Improve security vulnerabilities in marble academies hence users' smooth and confidential interaction with the platform.
- Improve overall app performance and speed using TurboStreams, Stimulus, and Sidekiq.
- Build API connections with AppSumo to enable users to make purchases from within AppSumo.

MICROVERSE   **Remote**
Code Reviewer   **September 2021 – March 2022**
- Perform 100+ code reviews on Html, CSS, Javascript, and React-Redux projects while giving constructive and supportive feedback.

Mentor (Volunteer)   **January 2021 – March 2022**
- Mentored junior web developers, providing technical support through code reviews.
- Provide advice and tips on how to stay motivated and maintain longevity in the program.

HIGHLIGHTED PERSONAL PROJECTS
- [Sneakers Hub](#). A reactive-rails e-commerce application using Stripe web UI for payments. Users can browse, filter, and search for sneakers all done with turbo-frames. Built with Rails and used Hotwire to make it reactive and email handling is deferred to a Sidekiq background job.
- [Quiz Center](#). A React front-end platform using Apollo and GraphQL to connect with a Rails API. Signed-up users can take different quizzes (only once). Also, users can resume at any time with each question answerable just once.

EDUCATION

MICROVERSE   **October 2020 – August 2021**
Remote Full Stack Web Development Program, Full Time
- Spent **1200+** hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with, Ruby on Rails, Javascript, React and Redux, HTML, CSS, and, Bootstrap.
- Developed skills in remote pair programming using GitHub, industry-standard GitFlow, and daily standups to communicate and collaborate with international remote developers.

UNIVERSITY OF BUEA
B.Ed Mathematics   October 2010 – December 2013
Completed coursework with First Class Honors.
